

Connected with global networks of excellence

VIII Americas Competitiveness Forum 2014, Trinidad and Tobago, 8-10th October

In June, Orkestra signed an agreement with the [University of British Columbia \(UBC\)](#) for the collaboration in research and teaching activities, as well as advising the UBC in the design of a centre for regional competitiveness. In October Orkestra became a full member of the [Red Interamericana de Competitividad](#), (RIAC) being the only non-American institution in this network. Orkestra hopes to facilitate the exchange of good practices in matters of regional competitiveness between America and Europe. Lastly, in November, the Institute signed a collaboration agreement with [Glasgow School of Arts \(GSA\)](#), establishing a learning space on designing processes with impact on territorial development.
